

## Math 10 Principles Errata

### Errata 1

On page 14, one of the dimensions in both graphics is labelled incorrectly. Please move the measurement 15 cm to the horizontal line in the graphic, as shown below.

### Errata 2

On page 66, the first line of the solution to example 8, c), should read:

c)  $150\,000 = 1\,800n + 17\,200$

### Errata 3

On page 93, the stem for Practice Exercise 1 should read:

1. The GCF for the terms  $21x^2yz$ ,  $3xyz$ , and  $9x$  is
